

CORRIGENDUM

When Do Voters Sanction Corrupt Politicians? – Corrigendum

Marko Klačnja, Noam Lupu and Joshua A. Tucker

In the original publication of Klačnja et al. (2021), we miscoded the gender of the candidates in our conjoint experiment. As a result, the gender effect reported in Figure 1 was inverted, but none of the results discussed in our article were affected. The corrected Figure 1 is provided here:

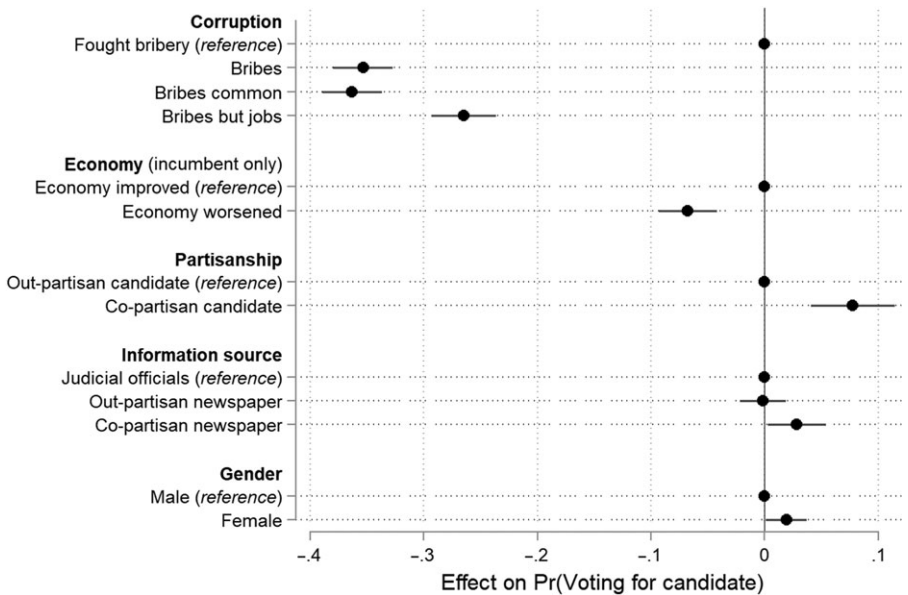

Figure 1
Conjoint experiment results.

Values represent the difference in respondents' propensity for supporting a hypothetical candidate based on each vignette characteristic. Lines represent 95% confidence intervals estimated using standard errors clustered by respondent. Estimates are based on OLS regressions.

We are grateful to Carmen Le Foulon and Catherine Reyes-Housholder for bringing this coding error to our attention.
